

# Y.A Final Exam Project

Ashlyn Parker

My favorite book of **ALL TIME** is...

# The Genre?

- **Horror and Mystery**
- **Horror-** It involves ghosts and alive dolls. There is frightening events that take place in the novel.
- **Mystery-** There is a lot of unfinished questions that need to be solved.

# Summary

The main character, Sophie, just arrived to her cousin's house that was once a boarding school, in Skye, to stay for a couple of weeks while her parents are away on a trip. She is still depriving from her incident that happened before the trip where her friend, Jay, was found in a river dead. Before he was found dead, Sophie and Jay were at a cafe messing around with an ouija board. Both did not know that this game would mess with their world and rebirth a spirit. The spirit happens to be Sophie's dead cousin, Rebecca and she will be staying at her house along with the rest of Rebecca's siblings. She hasn't seen her cousins Piper, Cameron and Lillas in a couple of years now and is excited to reunite. Piper, the oldest sister, seems to be super friendly and is glad to have Sophie for a couple of weeks. Cameron seems to want nothing to do with Sophie. As for the youngest sibling, Lillas she seems to be frightened and believes that her dead sister is still present. Sophie connects with Lillas because both seem to be intrigued by Rebecca. It seems like Rebecca isn't the only thing haunting these girls, but so is the Frozen Charlotte dolls that Rebecca used to play with when she was younger. The dolls would whisper at night to Sophie and Lillas asking them to come out and play while scratching at the glass shelf the dolls were locked in. Sophie feels something isn't right about this house or her cousins. She feels that there is more to Rebecca's death and these dolls. Will she stay and discover the meaning behind Rebecca's death and is her cousins really how they appear?

# Author's Style

Page 100-102

# Author's Style Cont...

- The author tricks you a lot when you read the novel because you predict something and she surprises you with something different.
- The Alex Bell makes the book very intense by creating a lot of detail and imagery. She makes it easier for readers to follow along without getting confused.
- The book has a lot of horror to it and it makes you at points feel fear and ambition to discover what may happen in the book. I think that is the best part of a book is when you can feel it through your body while imagining you are live at the scene.

# Opinion

- **This book is one of the best books that I read because it is different from any other book that I have read and I usually do not choose to read horror or mystery. This book was out of my reading style.**
- **There is always events occurring in the book and I never felt bored once reading this book. The book has a lot of details, but Alex Bell coordinates it, so that it is easy to comprehend.**
